USER GUIDE FOR USING THE WoodAccept GPS MONDI ŠTĚTÍ APP

FOR DRIVERS AND SUPPLIERS OF WOOD RAW MATERIALS

INSTALLATION OF THE WA GPS APP

As part of the optimization of recording and processing wood deliveries for Mondi Štětí a.s., we are introducing the preferred use of the WoodAccept GPS mobile app. The app enables the creation and submission of an electronic delivery note, recording and displaying the GPS route, online occupational health and safety training, and photo documentation during loading. The mobile app can be downloaded from the App Store for iPhone devices and from Google Play for Android devices.

Further information, app download links, and this guide are available at:

<https://www.woodaccept.cz/mobile-app/>

THE WEBSITE CAN ALSO BE OPENED BY SCANNING THE QR CODE.

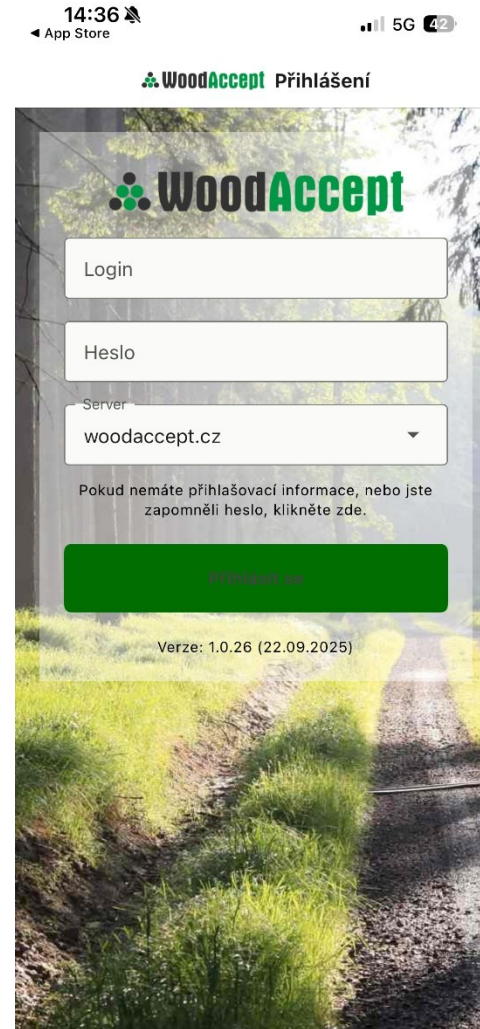

LOGGING IN TO THE APP

To use the app, you must log in under the relevant transport company. Login is set up in Settings, where the user name (LOGIN) and password must be entered. You will receive these access details from the relevant transport company that manages the WoodAccept dispatch centre.

LICENCE PLATE

After starting the app, enter the vehicle licence plate. Once saved, the licence plate does not have to be entered again each time the app is opened. On each subsequent start, simply confirm that the saved licence plate is still valid, or change it if necessary.
